
Table of Contents

pg. Analytical Tools

- 9** Sample Preparation
- 21** Instrumental Calibration
- 35** Quality Assurance Measures
- 45** Instrumental Calibration: Method of Standard Additions
- 71** Interlaboratory Comparisons
- 85** Instrumental Calibration: Method of Internal Standards
- 93** Sampling Error and Sampling Designs

Statistics

- 107** Errors in Measurements and Their Effect on Data Sets
- 117** Linear Regression for Calibration of Instruments

Electrochemistry

- 129** Electrochemistry: The Microscopic View of Electrochemistry
- 147** Electrochemistry: Calculating Cell Potentials

Spectrometry

- 169** The Beer-Lambert Law
- 181** Atomic and Molecular Absorption Processes
- 193** Infrared Spectroscopy: Vibrational Modes
- 207** Introduction to Absorption Spectrophotometers
- 225** Mass Spectra Interpretation

Chromatography and Separation

- 243** Introduction to Chromatography
- 253** Band Broadening Effects in Chromatography
- 263** Gas Chromatography or HPLC, Which Do You Choose?
- 275** Introduction to Gel Filtration Chromatography

289 ANA-POGIL Project Activities: Topics and Learning Goals

297 ANA-POGIL Activities & Analytical Texts Mapping
